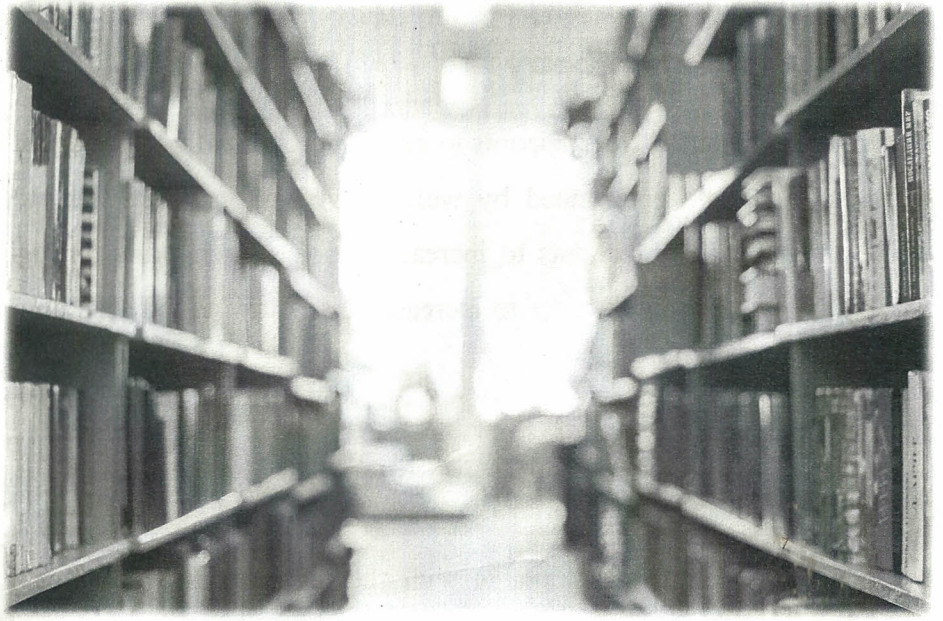
Programmes and Activities

Currently, NALIS Correctional Institution Libraries **(CIL)** are engaged in an ***Anti-Recidivism Literacy Project*** which is geared at equipping and rehabilitating offenders to cope while incarcerated and prepare them for easier reintegration.



A critical component of this project is the establishment of **Reintegration Centres and programming** which will serve to increase employability and coping ability. This will be facilitated through the provision of workshops and impactful sessions which address pertinent issues as well as resources that meet the information-seeking needs of the clientele.
